Jet 100	4.7	4	2.3	1.02	1.05	0.74	1	20

- 24 ltr pressure vessel
- Pressure switch for pump operation.
- Pressure gauge displaying system pressure
- Cast iron pump body
- Class F insulation
- IP 44 protection
- Single phase with built in thermal protection
- Maximum suction lift: 9m

Electrical Connections

The unit should be connected to a 240v single phase supply, via a fused switched outlet fitted with a 13 amp fuse.

Location

The unit should be installed in a dry, well ventilated position, protected from extremes of heat and cold.
