

Tekbox

Description

Prefabricated technical box for sunken fitting in the garden.
 Perfectly blends in with the environment.
 Innovative, all-in-one solution, compact enough to store all the equipment required for the proper functioning of the swimming pool.
 High level of watertightness, providing total protection for components.

Versions

Tekbox NT : Thanks to its totally sunken design, it is the perfect camouflage, blending in perfectly with the environment.

Tekbox SM: model designed especially for unstable land.
 The semi-sunken version of Tekbox also provides full access to all components.

Characteristic

High resistance: strengthened, injection-moulded thermoplastic that keeps its shape perfectly.
Stability: System for ground anchoring to avoid any movement or flotation.
Security: Reinforced lock and hinges.
Look: Design and colour that blends in with the environment.
Versatility: Full pre-fitted filtration-pump-valve units compatible with various add-on functions.

Components:

Standard unit:

Tekbox pre-fitted technical box.
 Blown or injection-moulded ESPA Pool filter, up to Ø 650 mm.
 Compact centrifugal pump from the Blaumar ESPA Pool range, up to 1 HP.
 6-way selector valve.

Options:

Impulsion pump for pool bottom cleaner (L).
Multipool model.
 Automatic jet-stream pump (N).
Wiper3 model.
 Saline electrolysis unit (E).
Esal Base model.

Accessories:

Drainage pump. *Vigila* model.
 Instrument panel. *Control Pool* model.
